THE LEADING TRADE SHOW
AT THE HEART OF EUROPE

INTERNATIONAL
WOOD FAIR
KLAGENFURT

With more than 500 exhibitors from 20 countries, the **INTERNATIONAL WOOD FAIR KLAGENFURT**, in collaboration with the **HOLZ&BAU Trade Show**, is the most significant information hub and meeting point for the timber industry in the **Alpine-Adriatic region**. An impressive presentation of the entire value chain in an exhibition space covering 50,000 m² awaits, ranging from forestry to sawmill technology, green energy to logistics, and structural engineering with timber to joinery and carpentry supplies.

The leading trade show is seen as the fertile soil that nurtures successful cooperation schemes in the timber and forestry industry in Central and Southern Europe. Benefit from this unique networking opportunity and meet international leaders in the timber and forestry industry. The **INTERNATIONAL WOOD FAIR** presents the best overview of the market and all the latest trends.

A B C W OUTDOOR AREA: FORESTRY & TRANSPORT

HALL 1 SAWING TECHNOLOGY & INNOVATIONS

Visitors from the trade learn about the latest technologies in the sawmill industry and meet the “who’s who” of the most renowned sawmill and timber drying suppliers. The exhibition area also includes forest stand and woodland management, timber harvesting techniques, timber sizing & IT, as well as research, teaching, consulting, and training opportunities.

FORESTRY & HUNTING**HUNTING**

Hunting immediately comes to mind when we think of timber and forests. The focal point on hunting covers this sector and showcases hunting weapons, binoculars, optical devices and hunting gear. Hunting clubs will also be present, and off-road vehicles will be on display.

FORESTRY

Continuing a long-standing tradition, forestry accounts for the most prominent and largest exhibition segment at this trade show. Presentations range from timber harvesting to cable crane technology, reforestation, clothing for forest workers, safety clothing and forestry tools. Many leading companies will display their products at the INTERNATIONAL WOOD FAIR 2024.

HALL 2 MOBILE SAWS AND BIOENERGY

Biomass is being increasingly used as an alternative to fossil fuels; it conserves natural resources and reduces harmful emissions. This section of the trade show is dedicated to various energy carriers, small-scale power stations, screening and shredding systems plus combustion and environmental engineering systems. Mobile saws are a must, of course, at this trade show. What's special here is that visitors can see all machinery in operation live on site.

Innovative suppliers, start-up companies, creators and innovators, scientists and researchers are given a platform to present their most impressive achievements.

The trade show will kick off with inspiring presentations and a glimpse into the future of the industry in the venue's Innovation Area. The future of the timber trade will be demonstrated through live shows giving visitors the opportunity to explore pioneering technologies. The exhibition shows the creative services, products and solutions offered by the participating companies. More information will be available in Hall 1, from companies including Tree.ly, MOWO, X-Fix and Packwall. Technical and vocational schools, such as Holztechnikum Kuchl and the renowned Salzburg University of Applied Sciences will present their courses and curricula.
